All smartphones have the ability to scan QR codes via their camera application. Where relevant, check your phone setting to ensure that the QR code reading feature is enabled in the camera.

To start scanning, simply open the 'Camera' or 'QR code scanner' application, and position the camera over the QR code of the can. PediaSure® that the QR code is centered and brought on close up. Upon successful scanning, you will see a link pop up from your application. Click on the link to open the Sure Abbott Rewards Program website on your browser.
